

Dear Sir:

Regarding the National Association of Broadcasters petition 04-160, I would like to say that my husband and I greatly enjoy the benefits of satellite radio that we currently pay for.

The variety and quality of this service is unsurpassed by anything we can get locally. It has been worth every penny spent. We also appreciate its versatility, being able to pick up any kind of music, talk or weather without any "dead air" between towns. My husband and I ride a motorcycle, and we enjoy the fact that we don't have to "search" for a channel to listen to when it's out of range.

In closing, we respectfully urge the FCC to reject the NAB's petition, and allow satellite programming to continue.

Thank you,

Mrs. Janet Glass
